INTERNAL CO-ORDINATION COMMITTEE ACTIVITIES REPORT

Academic Year: 2018-19

NAME OF COMMITTEE: Training and Placement

COMMITTEE IN-CHARGE: Ms. Anjali Kide **MEMBERS:** Ms. Sucheta Tikole

NAME OF ACTIVITY: "Certificate Course in cGMP and Soft Skills"

DATE AND TIME OF ACTIVITY CONDUCTED: - 19/01/2019 and 02/01/2019

VENUE: Seminar hall, ACP

NO. OF STUDENT VOLUNTEERS/ORGANIZERS: 05

BENEFICIARIES OF ACTIVITY: Students from Final Y. B.Pharm & M.Pharm

EXPERT FACULTY: Dr. Suvarna Deshpande and Dr. Shoma Shrivastava, Trainer
Aspire Academy, Pune.

PROPOSED OUTCOME OF THE ACTIVITY:

Students are able to

1. Practice interview skill in an environment similar to an actual interview.
2. Elaborate concepts of manufacturing, testing and quality assurance in order to ensure that drug product is safe for human consumption.

ACTIVITYREPORT:

The institute had offered certificate course in cGMP and soft skill in 2018-19 for final year B. Pharm and M. Pharm students. Total 65 students successfully completed cGMP and soft skills Certificate Course.

Program details are as follows

Training Session1 was conducted on 19/01/19

In this session following topic were covered

Alard Charitable Trust's
Alard College of Pharmacy

Alard Knowledge Park: S.No.50, Marunje
Near Rajiv Gandhi IT Park, Phase II, Pune- 411057

Grooming skills:

Dr. Suvarna Deshpande was highlighted about what efforts to be taken while preparing interview. She discussed about how to groom, prepare for interview and how to get rid from fear and anxiety during interview. She geared up the students through variety of examples which will help them to take right decision for their career. This was followed by an MCQ test.

Basic aspects in cGMP:

Dr. Suvarna Deshpande was explained the basic principles of cGMP, importance of cGMP, requirement for compliance for cGMP, cGMP guideline. In cGMP guideline she elaborated basic cGMP requirement followed by pharmaceutical manufacturer, common ways to avoid making most frequent GMP errors. This was followed by an MCQ test.

Good documentation Practices:

Dr. Suvarna Deshpande explained for GMP environment, documentation needs to meet certain requirements to ensure product quality and product safety. If an instruction or record is poorly documented, then the manufacture or Quality assurance/control of a product can be negatively impacted, potentially reducing patient safety. She explained about the different types of documents to be maintained in pharmaceutical industry. This was followed by an MCQ test.

Good laboratory practices.

Dr. Suvarna Deshpande was explained that GLP is a set of principle that guides how to laboratory studies planned, performed, monitored, recorded, reported and archived. This was followed by an MCQ test.

Alard Charitable Trust's
Alard College of Pharmacy

Alard Knowledge Park: S.No.50, Marunje
Near Rajiv Gandhi IT Park, PhaseII, Pune- 411057

Training Session 2 was conducted on 02/02/19

The following topic were covered during this session

Qualification and validation.

Dr. Suvarna Deshpande was explained in session on qualification and validation. She explained about importance of Qualification and validation in pharmaceutical industry. She also focused on types of qualification i.e. installation qualification (IQ), performance qualification (PQ) or operation qualification (OQ) and validation is needed to confirmed that any process performed in a pharmaceutical industry is operated within the specified limit. This was followed by an MCQ test.

Mock Interview Session.

Dr. Shoma Shrivastava and Dr. Suvarna Deshpande were conducted session on topic "How to Prepare for Interview including CV preparation and personal attire".

After giving tips about interview and group discussion, they conducted mock Group Discussion in groups of 05 students each.

After mock group discussion, Mock interview of students were conducted on one to one basis.

It was very motivating program for students. They interacted with students for overall feedback and guidance. Students are able to know how to prepare for interview and where they are lacking.

Mrs. Sucheta Tikole was a coordinator for this session. At the end of session certificates were distributed to students.

'Certificate Course in cGMP and Soft skill'

Academic Year: 2017 -18

Name of Committee: Training and Placement Committee

Name of Committee In-Charge: Ms. Harshada Bhangale

Name of activities with date: Certification course in cGMP and Soft skills

Date: 12/01/18 – Grooming skills

Date: 09/02/18 – Basic attempts in cGMP

Date: 16/02/18 – Good documentation practices

Date: 17/02/18 – Good laboratory practices

Date: 23/02/18 – Qualification validation

Date: 28/02/18 – IV fluid storage and distribution

Date: 01/03/18 – Mock Interview Session

Total No. Of students:- 69

EXPERT FACULTY: Dr. Suvarna Deshpande and Dr. Shoma Shrivastav (Trainer
Aspire Academy, Pune)

Activity Report:

The institute offered certificate course in cGMP and soft skills in 2017-18 for, Final year B. Pharm and M. Pharm students. Total 69 students successfully completed cGMP and soft skill Certificate Course.

Different sessions were conducted on 7 different days.

Program details are as follows (Duration: 16 hrs)

Training Session 1 was conducted on 12/01/18

Grooming skills

Dr. Suvarna Deshpande conducted a discussion in a group of 05 students, based on where they are lacking in grooming. Dr. Shoma Shrivastav conducted session on topic "Grooming Skills"

It was followed by giving grooming tips for boys and Girls Separately. It was very motivating program for students. They interacted with students for overall feedback and guidance. Students are able to know how to groom and where they are lacking.

Training Session 2 was conducted on 09/02/18

Basic aspects in cGMP

Presentation given by Dr. Suvarna Deshpande included cGMPs systems, proper design, monitoring, and control of manufacturing processes and facilities.

Training Session 3 was conducted on 16/02/18

Good documentation practices

This session was conducted by Dr. Suvarna Deshpande, she explained about which documents are created and maintained in the pharmaceutical and medical device industries. It included "how to prepare, maintain SOPs of equipment".

To maintain periodic documents and repeat it so that error free documentation is maintained. To prepare quality system for warehouse and distribution centers dedicated for medicines

The session is followed by test.

Training Session 4 was conducted on 17/02/18

Good laboratory practices

Dr. Suvarna Deshpande in this session explained about Good laboratory practice or GLP as a set of principles intended to assure the quality and integrity of non-clinical

laboratory studies that are intended to support research, manufacturing or marketing permits for products regulated by government agencies. She described the various guidelines for implementing GLP in pharma Industry including precautions to be taken by chemists while testing and documentation such as calibration of instruments, validations of methods, areas for accuracy, cleanliness, change overs, etc. in industry, the role of Pharmacopoeias and the required animal and microbiological testing that must be performed prior to approval of new drug products. The session was followed by MCQ based test.

Training Session 5 was conducted on 23/02/18

Qualification and validation

Dr. Suvama Deshpande presented requirements for qualification and validation in pharma industry.

The session was followed by MCQ based test.

Training Session 6 was conducted on 28/02/18

IV fluid storage and distribution

Dr. Suvama Deshpande provided the information of general storage and transportation of material FOR IV in pharma Industry. The session was followed by MCQ based test.

Training Session 7 was conducted on 01/03/18

Mock Interview Session

Dr. Shoma Shrivastav conducted session on topic How to Prepare for Interview including CV preparation and personal outfit.

After giving tips about interview and group discussion, Dr. Suvama Deshpande and her team conducted mock Group Discussion in groups of 05 students each.

Group discussion topics were "Pharma Industry- Great Future" & "Love marriage vs Arranged Marriage"

After mock group discussion, Mock interview of students were conducted on one to one basis. It was very motivating program for students. They interacted with students for overall feedback and guidance. Students are able to know how to prepare for interview and where they are lacking. At the end of session certificates were distributed to students.

Course outcome: Students are able to

1. Practice interview skill in an environment similar to an actual interview.
2. Provide guidance for manufacturing, testing and quality assurance in order to ensure that drug product is safe for human consumption.

The students were then guided to conduct group discussions by voluntary participation of students in various groups. They were taught to initiate a conversation, put forth their opinion and respond in a positive way.

Basic aspects in cGMP:

Dr. Suvama Deshpande conducted the session on cGMP and explained that cGMP guidelines provide guidance for manufacturing, testing and quality assurance in order to ensure that a food or drug product is safe for human consumption.

Good Documentation Practices:

Dr. Suvama Deshpande explained importance of GDP, she explained following purpose of GDP

- To define the specifications and procedures for all materials and methods of manufacture and control, including the manufacturing facility layout.
- To ensure that all personnel know what to do and when to do it
- To ensure that authorized persons have all information necessary for release of a product
- To ensure the existence of documented evidence, traceability, and to provide records and an audit trail for investigation and
- To ensure the availability of data for validation, review and statistical analysis

Good Laboratory Practices:

Dr. Suvama Deshpande in this session explained about Good laboratory practice or GLP as a set of principles intended to assure the quality and integrity of non-clinical laboratory studies that are intended to support research, manufacturing or marketing permits for products regulated by government agencies. She described the various guidelines for implementing GLP in pharma Industry including precautions to be taken by chemists while testing and documentation such as calibration of instruments, validations of methods, areas for accuracy, cleanliness, change overs, etc. in industry, the role of Pharmacopoeias and the required animal and

microbiological testing that must be performed prior to approval of new drug products.

Training Session 2 was conducted on 04/02/17

Topics covered during this session was

Qualification and validation:

Dr. Suvarna Deshpande narrated meaning of validation and qualification. She elaborated that Validation is needed because it verifies whether the quality standards and compliance are being met by the product before release to the market. Both method of analysis and manufacturing procedures are required to be Validated. Standard procedures for calibrations of instruments must be available. Different types of validations were described and students were provided with a sample validation protocol prepared to define the various stages for sampling and the responsibilities of staff.

Mock Interview Session:

Dr. Suvarna Deshpande and Dr. Shoma Shrivastav took mock interview. This session was very helpful for student to face interview in future and their confidence level was increased. In this session they gave practice interview Skills by creating environment similar to an actual interview.

At the end of session certificates were distributed to students and vote of thanks was given by Mrs. Manisha Sutar. Mrs. Sucheta Tikole was coordinator for this course.

tips on how to face interview like - Be confident, never fail to make eye contact, maintain a good posture, don't be nervous, don't cross your arms, don't play with your hair, and don't have a weak handshake; be polite, etc. She also gave examples of what students should not do while participating in an interview. .

Dr. Shoma and Dr. Suvarna then guided the students to conduct group discussions where students voluntarily participated in groups on randomly given topics. They were taught to initiate a conversation, put forth their opinion and respond in a positive way.

Basic aspects in cGMP:

Dr. Suvarna Deshpande described about basic cGMP aspects which includes quality of drug products should be carefully monitor by drug manufacturers according to compliance with its Current Good Manufacturing Practice (cGMP) regulations. She informed students about cGMP regulations for drugs laid down by Food and Drug administration, which contains minimum requirements for the methods, facilities, and controls used in manufacturing, processing, and packing of a drug product.

Good Documentation Practices:

Dr. Suvarna Deshpande explained importance of GDP and informed documentation control is not optional; it is a legal requirement, hence good documentation practices—commonly referred to as GDPs are critical. She describe about records and reports, along with procedures of manufactured products and devices and told that “good” documentation practices ensure the integrity and reliability of data.

Good Laboratory Practices:

In this session Dr. Suvarna Deshpande explained students about Good Laboratory Practice or GLP is intended to assure the quality and integrity of non-clinical laboratory studies. She narrated that GLP is most commonly associated with the pharmaceutical industry and applied to many other non-pharmaceutical agents such as food packaging food additives, food contamination limits, color additives, and medical devices.

Training Session 2 was conducted on 06/02/16

Topics covered during this session were

Qualification and Validation:

Dr. Suvarna Deshpande narrated qualification of analytical instrumentation is essential for accurate and precise measurement of analytical data. She told students that if the instrumentation is not qualified, ensuring that the results indicated are trustworthy, all other work based upon the use of that instrumentation is suspect. She also explained about validation of analytical instruments or analytical procedure ensures that suitable for its intended purpose.

Mock Interview Session:

Dr. Suvarna Deshpande and Dr. Shoma Shrivastav took common aptitude test and then group discussion for mock interview. One to one interviews were conducted by experts to provide the students with an experience of appearing for an interview. A general format for preparation of biodata was also provided to the students. This session helped students for interviews for manufacturing, testing and quality assurance and marketing fields. In order to ensure that drug product is safe for human consumption. At the end

Good Documentation Practices:

Dr. Suvarna Deshpande explained the importance of GDP, basic principles of GDP. She enlisted documents to be maintained and general requirements for GDP

Good Laboratory Practices:

Dr. Suvarna Deshpande explained that good laboratory practice is required to ensure the quality product for release for research or marketing permits and the GLP principles in detail.

Training Session 2 was conducted on 07/02/15

During this session following topics were covered

Qualification and validation

Dr. Suvarna Deshpande explained about the meaning of Validation, different types of Validation, calibration of instruments and their qualification in the pharmaceutical industry and information about validation protocols.

Mock Interview Session

Dr. Shoma Shrivastav and Dr. Suvarna Deshpande arranged Group discussion and mock interview session. Due to this session, the students got to experience interview skills in an environment similar to an actual interview, which helped students to understand what is expected in a real job interview and can help an applicant to improve his or her self-presentation.

At the end of this session certificates were distributed to students and vote of thanks was given by Mrs. Manisha Sutar. Mrs. Sucheta Tikole was the coordinator for this course.

Name of Activity: Strategies for Development of memory &Communication

Date of Activity Conducted:16-10-14

Expert Faculty: Mr. S. Sinha

Activity Report

Alard College of Pharmacy organized session on Strategies for Development of memory &Communication by Mr. Sinha an motivational speaker for first year students. He pointed out that memory strategies are particular type of cognitive process. He gave few examples and said that the lives of many children , especially those growing up in information age require the deliberate acquisition , retention and retrieval of information and memory strategies play important role in such information processing. He motivated students that for particular communication with others they should understand the surroundings and act accordingly. He made students to speak their views and explained their problems related to communication with others .This session was interactive and ended with vote of thanks.

VENUE: Central Instrumentation Facility Lab, (SPPU), Chemistry Department

NO. OF STUDENT VOLUNTEERS/ORGANIZERS: 03

BENEFICIARIES OF ACTIVITY: Students from T. Y. B.Pharm

PROPOSED OUTCOME OF THE ACTIVITY: Students got the knowledge about latest and advanced analytical Instruments for research in various areas of science and technology.

ACTIVITY REPORT:

Alard College of Pharmacy, Pune organized CIF lab Visit for T.Y.B pharm students on 11/10/2018 at 1:00 PM. This facility is widely used by undergraduate and post graduate students, research scholars and faculty members. The Central Instrumentation Facility (CIF) at the University has a range of instruments which include: NMR Spectrophotometer (Nuclear Magnetic Resonance), LC-MS (Liquid Chromatography- Mass Spectroscopy), GC-MS (Gas Chromatography- Mass Spectroscopy), FT-IR (Fourier Transform- Infra Red Spectroscopy), X-Ray Diffractometer.

Students were taken to each specialized sections where tests are performed and got a chance to understand the functioning of all the latest and updated instruments used to perform the analysis of drug. The use of Gas Chromatography coupled with Mass Spectrometry (GC-MS) is the most common and the oldest technology being used worldwide for testing of drug. The use of liquid chromatography coupled to

Alard Charitable Trust's
ALARD COLLEGE OF PHARMACY
Sr.No 50, Near Rajiv Gandhi Infotech Park,
Marunji, Pune 411057

tandem mass spectrometry (LC-MS/MS) has become quite widespread. This technique has helped to detect the difficult drugs falling into various categories of banned substances. Faculties of CIF have given detail information regarding how to handle instruments with its specific precaution, principle, softwares used and their applications.

Following Faculty of CIF has given information and demonstration of instruments-

Sr.No	Instruments	Make of Instruments	Faculty, CIF
1	GC -MS	Shimadzu	Mr. D.S.Shishupal
2	LC-MS	Water	Mr. Basavraj
3	FT-IR	Shimadzu	Mr. Basavraj
4	XRD	Bruker	Mr.Amit Patil
5	NMR	Bruker	Mrs. Sheetal Zakhade

Faculty of ACP and CIF took the initiative in organizing the educational visit and also accompanied the students along with. It was an interactive forum for exchange of new knowledge and opportunities for stimulating young minds. The students showed their interests and actively participated in the Lab visit.

Alard Knowledge Park: S.No.50, Marunje
Near Rajiv Gandhi IT Park, Phase II, Pune- 411057

Day 3: 09/10/2018 FTIR (3.5 Hrs) for all Batches

Sr. No	Time	Schedule	Venue
1.	9.30- 10.30am	Introduction, principle, working of FTIR	Seminar Hall
2.	11.00 – 12.00 pm	Demonstration of FTIR	Central Instrument Room
	Batch A	Hands on Training	
3.	12.00 – 1.00 pm	Lunch	
4.	1.00-2.00pm	Demonstration of FTIR	
	Batch B	Hands on Training	
5.	2.00- 3.00 pm	Demonstration of FTIR	
	Batch C	Hands on Training	
6.	3.00-3.30 pm	Tea	
7.	3.30 – 5.00 pm	Report writing of FTIR, MCQ based Evaluation Test, Certificate distribution	Seminar Hall

Training delivers a solid understanding of how to best operate and maintain UV/VIS spectrophotometer, ensuring your analysis is performed efficiently and effectively

The training session covers different aspects like instrumentation of UV and software handling. The session covers

- Introduction of UV
- Principal and Instrumentation of UV
- Application of UV
- Experiment work of UV- Sample preparation in UV

The training session covers different aspects like role of analytical method, principle and applications of HPLC. The training program begins with basics of chromatography and covers all the practical aspects of HPLC including sample preparation, method development and method validation. Following topics will be covered in this training.

- Introduction to chromatography
- Principles of liquid chromatography and HPLC components and their functions.
- Applications of HPLC
- System Suitability studies
- Experimental Work: Sample preparation, Method of analysis,

Alard Charitable Trust's

Sample analysis, Quantification,

Method validation & recovery studies.

The training session covers different aspects like instrumentation of FTIR and software handling. The session covers

- Introduction of FTIR
- Principal and Instrumentation of FTIR
- Application of FTIR
- Experiment work of FTIR- Sample preparation in FTIR

The IR spectra obtained shall be interpreted to identify the functional group present in sample. The regions of IR Spectra like finger print region, double bond region, triple bond region, hydrogen bonding region, Fermi resonance, and overtone bands shall be explained to the students. In addition, The operation of spectra manager user interface for measurement, evaluation and report generation shall be studies.

REPORT OF MODULE ON
COMPETENCY BASED CURRICULUM ENRICHMENT PROGRAM
Academic Year 2018-19

NAME OF COMMITTEE: Research and IPR

COMMITTEE IN-CHARGE: Ms. Swati Patil **MEMBERS:** Dr.Bapurao Tarate

NAME OF ACTIVITY: MODULE ON COMPETENCY BASED CURRICULUM ENRICHMENT PROGRAM

TOPIC : Training on Pilot plant– Dryer, Double Cone blender, Tablet Compression, Tablet coating, Dissolution Tester, Disintegration Test apparatus, Friability Apparatus

DATE AND TIME OF ACTIVITY CONDUCTED: -10/02/2019, 11/02/2019 & 12/02/2019

VENUE: Seminar Hall, Pilot Plant Lab.

NO. OF STUDENT VOLUNTEERS/ORGANIZERS: 5

BENEFICIARIES OF ACTIVITY: Students from Final Y. B.Pharm, F. Y. M. Pharm.

EXPERT FACULTY: Dr. Bapurao Tarate, Ms.Savita Deokar, Ms. Sneha Wankhede, Mr Nitin Shinde

APROPOSED OUTCOME OF THE ACTIVITY: Module provides students with theoretical knowledge and to provide real-time experience of handling manufacturing of Tablet Dosage Forms in a Pilot Plant and its maintenance.

Alard Charitable Trust's
Alard College of Pharmacy
Alard Knowledge Park: S.No.50, Marunje
Near Rajiv Gandhi IT Park, Phase II, Pune- 411057

ACTIVITY REPORT:

The following schedule was followed for the training:

Day 1: 10/02/2019

Time	Batch A	Batch B	Batch C
9.15-10.15 am Seminar Hall	Inauguration and Introduction to Program. Theoretical working of tray drier double cone blender, compression machine and coating equipment.		
10.15-11.15 am Seminar hall	Theoretical working of Dissolution Apparatus, Disintegration Apparatus, Friability apparatus and their calibration.		
11.30 – 01.00 pm	Operation Dryer, Demonstration of working of Dryer and Double Cone blender. Preparation of blend for direct compression. (Pilot Plant Lab)	Instrumentation, Demonstration and calibration of Dissolution apparatus (Central Instrumentation Room)	Instrumentation, validation and working of Disintegration test apparatus (PG lab-PH)
1.00 -1.45pm	Lunch Break		
1.45-3.00pm	Operation, demonstration of working of compression machine. Compression of tablets (Pilot Plant lab)	perform Dissolution test of market tablets (Central Instrumentation Room)	Instrumentation, validation and working of Friability apparatus (PG lab-PH)
3.00-5.00pm	Instrumentation, Demonstration Validation of Coating equipment by coating of tablets(Pilot Plant Lab)	Calculations of dissolution test and preparation of report.	Preparation of analysis reports

Alard Charitable Trust's
Alard College of Pharmacy
Alard Knowledge Park: S.No.50, Marunje
Near Rajiv Gandhi IT Park, Phase II, Pune- 411057

Day2:11/02/2019

Time	Batch A	Batch B	Batch C
9.15-10.45 am	Instrumentation, validation and working of Disintegration test apparatus (PG lab-PH)	Operation Dryer, Demonstration of working of Dryer and Double Cone blender. Preparation of blend for direct compression. (Pilot Plant Lab)	Instrumentation, Demonstration and calibration of Dissolution apparatus (Central Instrumentation Room)
11.00 – 12.30 pm	Instrumentation, validation and working of Friability apparatus (PG lab-PH)	Operation, demonstration of working of compression machine. Compression of tablets (Pilot Plant lab)	perform Dissolution test of market tablets (Central Instrumentation Room)
12.30 -1.15pm	Lunch Break		
1.15-3.15pm	Preparation of analysis reports, its documentation and discussion	Instrumentation, Demonstration Validation of Coating equipment by coating of tablets (Pilot Plant Lab)	Calculations of dissolution test and preparation of report, documentation and discussion
3.30-5:00pm	ICH Regulatory Guidelines and importance of its compliance		

Alard Charitable Trust's
Alard College of Pharmacy
Alard Knowledge Park: S.No.50, Marunje
Near Rajiv Gandhi IT Park, Phase II, Pune - 411057

Day 3: 12/02/2019

Time	Batch A	Batch B	Batch C
9.15-10.45 am	Instrumentation, Demonstration and calibration of Dissolution apparatus (Central Instrumentation Room)	Instrumentation, validation and working of Disintegration test apparatus (PG lab-PH)	Operation Dryer, Demonstration of working of Dryer and Double Cone blender. Preparation of blend for direct compression. (Pilot Plant Lab)
11.00 -12.30 pm	perform Dissolution test of market tablets (Central Instrumentation Room)	Instrumentation, validation and working of Friability apparatus (PG lab-PH)	Operation, demonstration of working of compression machine. Compression of tablets (Pilot Plant lab)
12.30 -1.15pm	Lunch Break		
1.15-3.15pm	Calculations of dissolution test and preparation of report, documentation and discussion	Preparation of analysis reports, its documentation and discussion	Instrumentation, Demonstration Validation of Coating equipment by coating of tablets (Pilot Plant Lab)
3.30-5:00pm	MCQ Based Test and distribution of certificates.		

This interactive course focuses on the quality controls and production of Coated Tablet Dosage Forms. Using a Process and Production Video for Unit Operations, including Mixing, Blending, Drying, Tableting, and Coating provides participants with a visual demonstration of current manufacturing and engineering practices. The training program begins with basics of Unit Operations. It covers

A. Training on Tray Dryer.

1. Principle of Tray Drying
2. Instrumentation of Tray Dryer.

3. Operation of Tray Dryer

5. Demonstration and working of Tray Dryer.

B. Training on Double cone blender.

1. Principle of blending.

2. Instrumentation of Double cone blender.

3. Operation Double cone blender

5. Demonstration and working of Double cone blender.

C. Training on Tablet Compression. Machine

1. Principle of Compression.

2. Instrumentation of Compression.

3. Operation of Compression.

5. Cleaning validation of Compression.

D. Training on Disintegration Test apparatus.

1. Principle of Disintegration.

2. Instrumentation of Disintegration Test apparatus.

3. Procedure Disintegration Test apparatus.

5. Demonstration and working of Disintegration Test apparatus.

E. Training on Friability apparatus.

1. Principle of Friability apparatus

2. Instrumentation of Friability apparatus.

3. Procedure of Friability Test.

5. Demonstration and working of Friability apparatus.

F. Training on Coating Equipment

1. Principle of Coating.

2. Instrumentation of Coating Machine.

3. Demonstration and working of Coating Machine with coating solution spray and air blower.

G. ICH Regulatory Guidelines and Importance of its compliance

Activity Report of Workshop on Pharmacokinetics in Data labeled Inserts

Committee: Scientific Committee

Date: 10-08-2018

Venue: Seminar Hall

Resource Person: Dr Arshia Shariff delivered a workshop on Pharmacokinetics in Data Labelled Inserts for Final Yr B.Pharm, M.Pharm students and faculty. She explained the pharmacokinetics involved in simulated data labeled inserts and provided information on how to interpret the information present in it. The various pharmacokinetic parameters and their analysis was provided. The science and research behind attaining the data given in the inserts was also elaborately explained. Students were also given an insight into the career as a PK-PD scientist.

Data labelled insert data generation being projected to the participants for interpretation.

INTERNAL CO-ORDINATION COMMITTEE ACTIVITIES REPORT

Academic Year: 2018-19

NAME OF COMMITTEE: Scientific Committee

COMMITTEE IN-CHARGE: Dr. Bapurao Tarate **MEMBERS:** Mrs. Swati Patil

NAME OF ACTIVITY: "Quality Assurance Techniques"

DATE AND TIME OF ACTIVITY CONDUCTED: - 28/07/2018

VENUE: Seminar Hall ACP

NO. OF STUDENT VOLUNTEERS/ORGANIZERS: 02

BENEFICIARIES OF ACTIVITY: M. Pharm first year & B. Pharm Final Year

PROPOSED OUTCOME OF THE ACTIVITY: Students got the knowledge about Quality Assurance Techniques.

ACTIVITY REPORT:

Alard College of Pharmacy, Pune had arranged Internal Technical session on "Quality Assurance Techniques" of Dr. Sudhir Pandya. Assistant Professor, ACP, Pune. Dr. Sudhir Pandya highlights importance of QA and QC in pharmaceutical Industry. He also emphasized on quality assurance techniques related to all departments. In Process Quality Control (IPQC) and In Process Quality Assurance (IPQA) were explained. He also taught "How QA helps in Quality and Production". The students are highly encouraged and actively participated in workshop. Students pose personalized questions and clarified it by Dr. Sudhir Pandya.

**ACTIVITY REPORT ON CERTIFICATE COURSE IN DESIGN OF EXPERIMENTS
(DOE)**

ACADEMIC YEAR 2018-19

Name of the course: Certificate Course in Design of Experiments (DOE)

Course Code: ACP-DOE

DOE is a method to determine the relationship between factors affecting a process and the output of that process. Whereas **QbD** is a systematic process of designing a process with predefined objectives during development stage, so as to ensure a predefined quality is produced consistently. **PAT** is used for effective automation and optimization.

Program Detail:

Day 1: 23/04/2019 Resource Person: Mr Subhash Kumbhar (8 Hrs)

- Introduction and Components of Experimental Design
- Purpose of Experimentation
- Design Guidelines
- Design process
- One factor and two factor experiments
- Hands on Training on DOE

Day 2: 24/04/19 Resource Person: Dr. Arshia Shariff (7Hrs)

- Risk assessment, and Process Analytical Technology (PAT) tools used in QbD process: Examples and analysis of results using case studies.

Beneficiaries: 23 M.Pharm Students and 6 PG faculty.

Activity Report of Workshop on Autodock - A Molecular Modeling Simulation

Software

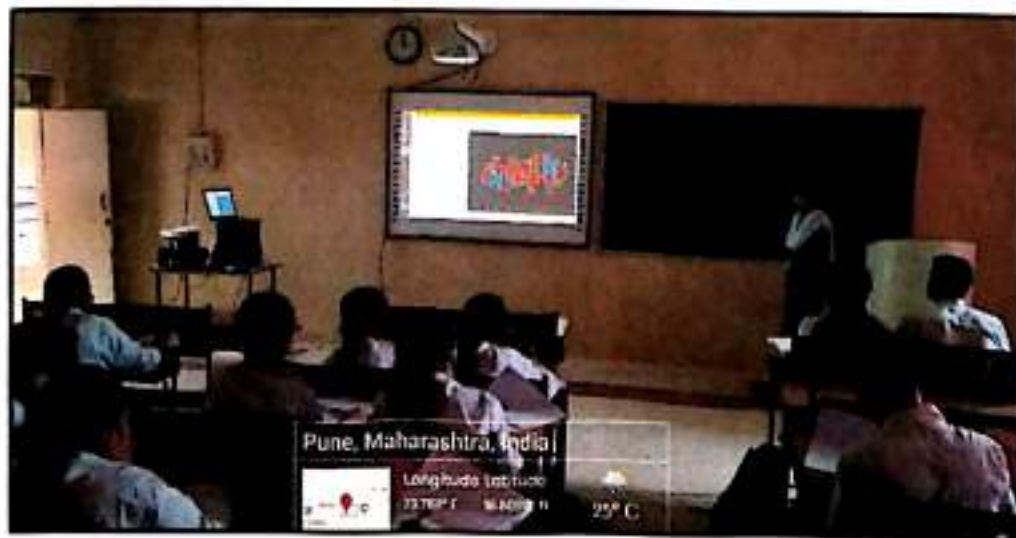

Committee: Scientific Committee

Date: 06-04-2019

Venue: Seminar Hall

Coordinator and Resource Person: Ms Kumud Bendarkar

A workshop was conducted by Ms Kumud Bendarkar from Dept of Pharmachemistry on the Autodock software to simulate molecular modeling. An introduction to molecular modeling was delivered before the software demonstration. The workshop involved demonstration of drug candidates binding to receptor of 3D structures. It was followed by delivery of applications of this automated docking tool in research. Students were divided into groups and they attempted docking small drug molecules to known receptors on the software.

**Activity Report of Workshop on Working of Model Drug and Poison
Information Center**

Committee: Scientific Committee

Date: 30-03-2019

Venue: Model DPIC and Seminar Hall

Coordinator and Resource Person: Dr Arshia Shariff

A workshop was conducted by Dr Arshia Shariff on the working of a Model DPIC.

The module involved the following topics:

1. Role of Drug and Poison Information Center
2. Common poisoning cases dealt by DPIC in India
3. Common household poisons.
4. Treatment guidelines in the event of poisoning.
5. Early and pre-hospital management in poisoning.
6. First aid for poisoning victims at home.
7. Antidotes for common poisoning cases in case of drug poisoning.
8. Sequence of Handling a call from the Public for poisoning cases.
9. How to receive a call for enquiry-Role Play.
10. How to collect authentic and accurate information from resources in record time.

working, and applications of Pharmaceutical Product Testing Equipment.**

Committee: Scientific Committee

Date:12-01-2019

Venue: Electrolab India pvt Ltd, Mahape, Navi Mumbai.

Resource Person: Dr Namita Varde, Training In-Charge, Electrolab India Pvt Ltd.

18 M.Pharm students accompanied by two faculty Dr Arshia Shariff and Ms Sheetal Patil visited Electrolab India Pvt Ltd at Mahape. They were given a detailed lecture session on innovations in dissolution studies and in their dissolution assembly made by Electrolab. Afternoon session involved demonstrations on all 7 types of dissolution apparatus. Students were taken on a visit into the manufacturing unit of electrolab where they got to see the assembly of the dissolution apparatus and its validation. At the end of the session, Mrs Shivani Kamble , Manager, R&D of electrolab presented certificates to all the participants.

INTERNAL CO-ORDINATION COMMITTEE ACTIVITIES REPORT

Academic Year 2017- 2018

Name of Committee: Training and Placement

Name of Committee In-Charge: Ms. Harshada Bangade

Name of Activity: Central Instrumentation Facility Lab, (SPPU) visit.

Date of Activity Conducted: 15-11-2017

Activity Report

Alard College of Pharmacy, Marunje, Pune had organized visit to Central Instrumentation Facility Lab on 15-11-2017 for T.Y. B.Pharm & Final Y.B.Pharm students. 25 students along with two staffs visited CIF Lab. Professors & Experts from CIF gave very informative and practical knowledge regarding various instruments to students. They have shown brief knowledge and demonstration of instruments like GC-MS (Gas Chromatography & Mass Spectroscopy), IR (Infra red Spectroscopy), DSC (Differential Scanning Colorimetry), XRD (X-ray Diffraction Spectroscopy), HPLC (High Performance Liquid Chromatography), NMR (Nuclear Magnetic Resonance).

Day 3: 18/10/2017 Fluorimeter (3.5 Hrs) for all Batches

Sr.No	Time	Schedule	Venue
1.	9.30- 10.30am	Introduction, principle, working of Fluorimeter	Seminar Hall
2.	11.00 – 12.00 pm Batch A	Demonstration of Fluorimeter Hands on Training	Central Instrument Room
3.	12.00 – 1.00 pm	Lunch	
4.	1.00-2.00pm Batch B	Demonstration of Fluorimeter Hands on Training	
5.	2.00- 3.00 pm Batch C	Demonstration of Fluorimeter Hands on Training	
6.	3.00-3.30 pm	Tea	
7.	3.30 – 5.00 pm	Report writing of Fluorimeter, MCQ based Evaluation Test, Certificate distribution	Seminar Hall

The training session covers different aspects like instrumentation of UV and software handling. The session covers

- Introduction of UV
- Principal and Instrumentation of UV
- Application of UV
- Experiment work of UV- Sample preparation in UV

The training session covers different aspects like role of analytical method, principle and applications of HPLC. The training program begins with basics of chromatography and covers all the practical aspects of HPLC including sample preparation, method development and method validation. Following topics will be covered in this training.

- Introduction to chromatography

- Principles of liquid chromatography and HPLC components and their functions
- Applications of HPLC
- System Suitability studies
- Experimental Work: Sample preparation, Method of analysis,

Sample analysis, Quantification,

Method validation & recovery studies.

The training session covers different aspects like instrumentation of fluorimeter . The session covers

- Introduction of fluorimeter
- Principal and Instrumentation of fluorimeter
- Application of fluorimeter
- Experiment work of fluorimeter

A fluorometer or fluorimeter is a device used to measure parameters of visible spectrum fluorescence. It's intensity and wavelength distribution of emission spectrum after excitation by a certain spectrum of light. These parameters are used to identify the presence and the amount of specific molecules in a medium. This is explained to the students, modern fluorometers are capable of detecting fluorescent molecule concentrations as low as 1 part per trillion. In addition, students are informed how fluorescence analysis can be more sensitive than other techniques.

REPORT OF MODULE ON **COMPETENCY BASED CURRICULUM ENRICHMENT PROGRAM**

Academic Year 2017-18

NAME OF COMMITTEE: Scientific Committee

COMMITTEE IN-CHARGE: Dr. Bapurao Tarate **MEMBERS:** Ms. Swati Patil

NAME OF ACTIVITY: MODULE ON COMPETENCY BASED CURRICULUM
ENRICHMENT PROGRAM

TOPIC : Training on Pilot plant- Dryer, Double Cone blender, Tablet Compression,
Tablet coating, Dissolution Tester, Disintegration Test apparatus, Friability Apparatus

DATE AND TIME OF ACTIVITY CONDUCTED: -13/02/2018, 14/02/2018 & 15/02/2018

VENUE: Seminar Hall, Pilot Plant Lab.

NO. OF STUDENT VOLUNTEERS/ORGANIZERS: 5

BENEFICIARIES OF ACTIVITY: Students from Final Y. B.Pharm, F. Y. M. Pharm.

EXPERT FACULTY: Dr. Arshia Shariff, Dr. Bapurao Tarate, Mrs. Anju Hasnain

APPROPOSED OUTCOME OF THE ACTIVITY: Module provides students with
theoretical knowledge and to provide real-time experience of handling manufacturing of
Tablet Dosage Forms in a Pilot Plant and its maintenance..

ACTIVITY REPORT:

The following schedule was followed for the training:

Day 1: 13/02/2018

Alard Charitable Trust's

Alard College of Pharmacy

(Approved by AICTE, Affiliated to University of Pune & Recognized by Govt. of Maharashtra)

ID No. U/P/Pharmacy/255/2008

Time	Batch A	Batch B	Batch C
9.15-10.15 am Seminar Hall	Inauguration and Introduction to Program. Theoretical working of tray drier double cone blender, compression machine and coating equipment.		
10.15-11.15 am Seminar hall	Theoretical working of Dissolution Apparatus, Disintegration Apparatus, Friability apparatus and their calibration.		
11.30 - 01.00 pm	Operation Dryer, Demonstration of working of Dryer and Double Cone blender. Preparation of blend for direct compression. (Pilot Plant Lab)	Instrumentation, Demonstration and calibration of Dissolution apparatus (Central Instrumentation Room)	Instrumentation, validation and working of Disintegration test apparatus (PG lab-PH)
1.00 -1.45pm	Lunch Break		
1.45-3.00pm	Operation, demonstration of working of compression machine. Compression of tablets (Pilot Plant lab)	perform Dissolution test of market tablets (Central Instrumentation Room)	Instrumentation, validation and working of Friability apparatus (PG lab-PH)
3.00-5.00pm	Instrumentation, Demonstration Validation of Coating equipment by coating of tablets(Pilot Plant Lab)	Calculations of dissolution test and preparation of report.	Preparation of analysis reports

Day2:14/02/2018

Time	Batch A	Batch B	Batch C

11.00 –12.30 pm	perform Dissolution test of market tablets (Central Instrumentation Room)	Instrumentation, validation and working of Friability apparatus (PG lab-PH)	Operation, demonstration of working of compression machine. Compression of tablets (Pilot Plant lab)
12.30 -1.15pm	Lunch Break		
1.15-3.15pm	Calculations of dissolution test and preparation of report, documentation and discussion	Preparation of analysis reports, its documentation and discussion	Instrumentation, Demonstration Validation of Coating equipment by coating of tablets (Pilot Plant Lab)
3.30-5:00pm	MCQ Based Test and distribution of certificates.		

This interactive course focuses on the quality controls and production of Coated Tablet Dosage Forms. Using a Process and Production Video for Unit Operations, including Mixing, Blending, Drying, Tableting, and Coating provides participants with a visual demonstration of current manufacturing and engineering practices. The training program begins with basics of Unit Operations. It covers

A. Training on Tray Dryer.

1. Principle of Tray Drying
2. Instrumentation of Tray Dryer.
3. Operation of Tray Dryer
5. Demonstration and working of Tray Dryer.

B. Training on Double cone blender.

1. Principle of blending.

REPORT OF MODULE ON

COMPETENCY BASED CURRICULUM ENRICHMENT PROGRAM

Academic Year 2017-18

NAME OF COMMITTEE: Scientific committee

COMMITTEE IN-CHARGE: Ms. Swati Patil **MEMBERS:** Dr. Bapurao Tarate

NAME OF ACTIVITY: MODULE ON COMPETENCY BASED CURRICULUM ENRICHMENT PROGRAM

TOPIC : Training on Animal Handling and Pharmacological Experiments

DATE AND TIME OF ACTIVITY CONDUCTED: -12/09/2017, 13/09/2017

VENUE: Seminar Hall, Pharmacology Laboratory.

NO. OF STUDENT VOLUNTEERS/ORGANIZERS: 2

BENEFICIARIES OF ACTIVITY: First Year M. Pharm.

EXPERT FACULTY: Mr. Vijay Yelwantge, Ms. Harshada Bangale, Mr. Rajesh

- **PROPOSED OUTCOME OF THE ACTIVITY:** Module provides students with theoretical knowledge and provides real-time experience of handling, care and use of Animals for Pharmacology experiments. This will improve pharmacy students' awareness and confidence regarding animal use in the pharmacology laboratory and develop practical skills. They will also learn how to plan and perform ethical animal experiments.

ACTIVITY REPORT:

The training was carried out for two days as follows:

Day 1:12/9/2017 (8hrs)

Time	Batch A	Batch B
9.15 to 10.15 am Seminar Hall	Introduction of the program, animal care taking	
10.15- 12.15 pm Seminar Hall	<ul style="list-style-type: none">• Analgesic activity of drug using Eddy's hot plate analgesiometer in mice.• Experimental Work: Feeding Methods Creating different types of wounds for Wound- healing activity	
12.15 – 1.00pm	LUNCH	
1.00-3.00pm	Creating different types of wounds for Wound- healing activity	Analgesic activity of drug using Eddy's hot plate analgesiometer in mice
3.00-5.00pm	Experimental Work: Feeding Methods	Creating different types of wounds for Wound- healing activity

Email: info@alardinstitutes.org Website: www.alardinstitutes.org

Day 2:13/09/18 (8hrs)

Time	Batch A	Batch B
9.15-10.15 am	Introduction to Planning of Experiments,	
10.15-11.15 am	Animal sacrificing techniques – Video presentation	
11.15-12.15pm	Legal Requirements of Animal studies-CPSCEA	
12.15-1.00pm	Lunch Break	
1.00-3.00pm	Muscle relaxant property of drug using rotarod in mice	Loco motor activity of drug using Actophotometer in mice
3.00-4.00pm	Anticonvulsant activity of drugs using Electroconvulsimeter in mice	Muscle relaxant property of drug using rotarod in mice
4.00 – 5.00 pm	Loco motor activity of drug using Actophotometer in mice	Anticonvulsant activity of drugs using Electroconvulsimeter in mice

The training session covered introduction to the relevant legal paragraphs. The training program begins with basics physiology of pain, anesthesia/analgesia, alternatives to animal research, and housing of laboratory animals. The session covers

- Introduction to animal handling guideline and ethics.
- Planning of experiments
- Animal care-taking
- Experimental Work: Feeding Methods
- Analgesic activity of drug using Eddy's hot plate Analgesiometer in mice
- Wound- healing activity
- Animal Sacrifice technique
- Legal Requirements of Animal studies-CPSCEA.

ACTIVITY REPORT:

The module was covered in three days as follows:

Day 1: 17/10/2016 UV (3.5Hrs), HPLC (4.5 Hrs) for all Batches

Sr. No	Time	Schedule	Venue
1.	9.00-10.00 am	Introduction, Principle and Instrumentation of UV	Seminar Hall
2.	10.00-10.30 am	Application of UV	
3.	10.30-12.30pm (Batch A,B,C – 40 mins each)	Hands on Training on software used in UV	Central Instrument Room
4.	12.30-1.00pm	Lunch Break	
5.	1.00-2.00pm	Introduction, Principle and Instrumentation of HPLC	Seminar Hall
6.	2.00-2.30pm	Applications of HPLC	
7.	2.30-3.30pm	System Suitability studies	
8.	3.30-4.30	Trouble shooting in HPLC	

Day 2: 18/10/2016 HPLC (3.5Hrs/ batch)

Sr. No	Time	Schedule	Venue
1.	9.00-11.00am Batch A	Practical demonstration & Hands On Training of HPLC	Central Instrument Room
2.	11.00-1.00pm Batch B	Practical Demonstration & Hands on Training of HPLC	
3.	1.00-1.30pm	Lunch	
4.	1.30-3.30pm Batch C	Practical Demonstration & Hands on Training of HPLC	Central Instrument Room
5.	3.30-5.00pm	Calculations Report writing All Batches	Seminar Hall

Email: info@alardinstitutes.org Website: www.alardinstitutes.org

Day 3: 19/10/2016 Fluorimeter (3.5 Hrs) for all Batches

Sr. No	Time	Schedule	Venue
1.	9.30- 10.30am	Introduction, principle, working of Fluorimeter	Seminar Hall
2.	11.00 – 12.00 pm Batch A	Demonstration of Fluorimeter Hands on Training	Central Instrument Room
3.	12.00 – 1.00 pm	Lunch	
4.	1.00-2.00pm Batch B	Demonstration of Fluorimeter Hands on Training	
5.	2.00- 3.00 pm Batch C	Demonstration of Fluorimeter Hands on Training	
6.	3.00-3.30 pm	Tea	
7.	3.30 – 5.00 pm	Report writing of Fluorimeter, MCQ based Evaluation Test, Certificate distribution	Seminar Hall

The training session covers different aspects like instrumentation of UV and software handling. The session covers

- Introduction of UV
- Principal and Instrumentation of UV
- Application of UV
- Experiment work of UV- Sample preparation in UV

The training session covers different aspects like role of analytical method, principle and applications of HPLC. The training program begins with basics of chromatography and covers all the practical aspects of HPLC including sample preparation, method development and method validation. Following topics will be covered in this training.

- Introduction to chromatography
- Principles of liquid chromatography and HPLC components and their functions
- Applications of HPLC
- System Suitability studies
- Experimental Work: Sample preparation, Method of analysis,

Sample analysis, Quantification,

Method validation & recovery studies.

The training session covers different aspects like instrumentation of fluorimeter . The session covers

- Introduction of fluorimeter
- Principal and Instrumentation of fluorimeter
- Application of fluorimeter
- Experiment work of fluorimeter

A fluorometer or fluorimeter is a device used to measure parameters of visible spectrum fluorescence. It's intensity and wavelength distribution of emission spectrum after excitation by a certain spectrum of light. These parameters are used to identify the presence and the amount of specific molecules in a medium. This is explained to the students, modern fluorometers are capable of detecting fluorescent molecule concentrations as low as 1 part per trillion. In addition, students are informed how fluorescence analysis can be more sensitive than other techniques.

REPORT OF MODULE ON

COMPETENCY BASED CURRICULUM ENRICHMENT PROGRAM

Academic Year 2016-17

NAME OF COMMITTEE: Scientific Committee

COMMITTEE IN-CHARGE: Ms. Arpana Patil **MEMBERS:** Mr. Sameer Sawant

NAME OF ACTIVITY: MODULE ON COMPETENCY BASED CURRICULUM
ENRICHMENT PROGRAM

TOPIC : Training on Pilot plant- Dryer, Double Cone blender, Tablet Compression,
Tablet coating, Dissolution Tester, Disintegration Test apparatus, Friability Apparatus

DATE AND TIME OF ACTIVITY CONDUCTED: -09/02/2017, 10/02/2017 & 11/02/2017

VENUE: Seminar Hall, Pilot Plant Lab.

NO. OF STUDENT VOLUNTEERS/ORGANIZERS: 5

BENEFICIARIES OF ACTIVITY: Students from Final Y. B.Pharm, F. Y. M. Pharm.

EXPERT FACULTY: Ms. Arpana Patil, Mrs. Sucheta Tikole, Mrs. Jyoti Kadam

APROPOSED OUTCOME OF THE ACTIVITY: Module provides students with
theoretical knowledge and to provide real-time experience of handling manufacturing of
Tablet Dosage Forms in a Pilot Plant and its maintenance.

ACTIVITY REPORT:

The following schedule was followed for the training:

Day 1: 09/02/2017

Time	Batch A	Batch B	Batch C

demonstration of current manufacturing and engineering practices. The training program begins with basics of Unit Operations. It covers

A. Training on Tray Dryer.

1. Principle of Tray Drying
2. Instrumentation of Tray Dryer.
3. Operation of Tray Dryer
5. Demonstration and working of Tray Dryer.

B. Training on Double cone blender.

1. Principle of blending.
2. Instrumentation of Double cone blender.
3. Operation Double cone blender
5. Demonstration and working of Double cone blender.

C. Training on Tablet Compression. Machine

1. Principle of Compression.
2. Instrumentation of Compression.
3. Operation of Compression.
5. Cleaning validation of Compression.

D. Training on Disintegration Test apparatus.

1. Principle of Disintegration.
2. Instrumentation of Disintegration Test apparatus.
3. Procedure Disintegration Test apparatus.
5. Demonstration and working of Disintegration Test apparatus.

E. Training on Friability apparatus.

1. Principle of Friability apparatus
2. Instrumentation of Friability apparatus.

ACADEMIC YEAR 2016-17

Activity Report of Workshop on Autodock - A Molecular Modeling Simulation

Software

Committee: Scientific Committee

Date: 11-03-2017

Venue: Seminar Hall

Coordinator and Resource Person: Ms Jyoti Kadam

A workshop was conducted by Ms Jyoti Kadam from Dept of Pharmacchemistry on the Autodock software to simulate molecular modeling. An introduction to molecular modeling was delivered before the software demonstration. The workshop involved demonstration of drug candidates binding to receptor of 3D structures. It was followed by delivery of applications of this automated docking tool in research. Students were divided into groups and they attempted docking small drug molecules to known receptors on the software.

INTERNAL CO-ORDINATION COMMITTEE ACTIVITIES REPORT

Academic Year 2015- 2016

Name of Committee: Scientific Committee

Name of Committee In-Charge: Arpana Patil

Name of Committee Member: Mr. Sameer Sawant

Name of Activity: "Workshop On "Role Of Chromatographic Technique In Extraction ,Isolation Of Phytoconstituents"

Date of Activity Conducted: 4-03-2016

Activity Report

Alard College of Pharmacy arranged Workshop On "Role Of Chromatographic Technique In Extraction ,Isolation Of Phytoconstituents" by Pharmacognosy department. In this workshop Dr. Swati Deshmukh, Asst professor ,Dept. of Pharmacognosy provided lecture on Role of Chromatography and techniques of extraction . She also explained about types of extraction process and application in detail. Separation of Phytoconstituents by Column Chromatography practically shown by Mrs. Manisha Sutar, HOD and Mrs. Aarti Kale, Asst professor Dept. of Pharmacognosy.

ACTIVITY REPORT:

The module was covered in three days as follows:

Day 1: 10/10/2015 UV (3.5Hrs), HPLC (4.5 Hrs) for all Batches

Sr. No	Time	Schedule	Venue
1.	9.00-10.00 am	Introduction, Principle and Instrumentation of UV	Seminar Hall
2.	10.00-10.30 am	Application of UV	
3.	10.30-12.30pm (Batch A,B,C – 40 mins each)	Hands on Training on software used in UV	Central Instrument Room
4.	12.30-1.00pm	Lunch Break	
5.	1.00-2.00pm	Introduction, Principle and Instrumentation of HPLC	Seminar Hall
6.	2.00-2.30pm	Applications of HPLC	
7.	2.30-3.30pm	System Suitability studies	
8.	3.30-4.30	Trouble shooting in HPLC	

Day 2: 11/10/2015 HPLC (3.5Hrs/ batch)

Sr. No	Time	Schedule	Venue
1.	9.00-11.00am Batch A	Practical demonstration & Hands On Training of HPLC	Central Instrument Room
2.	11.00-1.00pm Batch B	Practical Demonstration & Hands on Training of HPLC	
3.	1.00-1.30pm	Lunch	
4.	1.30-3.30pm Batch C	Practical Demonstration & Hands on Training of HPLC	Central Instrument Room
5.	3.30-5.00pm	Calculations Report writing All Batches	Seminar Hall

Day 3: 12/10/2015 Fluorimeter (3.5 Hrs) for all Batches

Sr. No	Time	Schedule	Venue
1.	9.30- 10.30am	Introduction, principle, working of Fluorimeter	Seminar Hall
2.	11.00 – 12.00 pm Batch A	Demonstration of Fluorimeter Hands on Training	Central Instrument Room
3.	12.00 – 1.00 pm	Lunch	
4.	1.00-2.00pm Batch B	Demonstration of Fluorimeter Hands on Training	
5.	2.00- 3.00 pm Batch C	Demonstration of Fluorimeter Hands on Training	
6.	3.00-3.30 pm	Tea	
7.	3.30 – 5.00 pm	Report writing of Fluorimeter, MCQ based Evaluation Test, Certificate distribution	Seminar Hall

The training session covers different aspects like instrumentation of UV and software handling. The session covers

- Introduction of UV
- Principal and Instrumentation of UV
- Application of UV
- Experiment work of UV- Sample preparation in UV

The training session covers different aspects like role of analytical method, principle and applications of HPLC. The training program begins with basics of chromatography and

covers all the practical aspects of HPLC including sample preparation, method development and method validation. Following topics will be covered in this training.

- Introduction to chromatography
- Principles of liquid chromatography and HPLC components and their functions
- Applications of HPLC
- System Suitability studies
- Experimental Work: Sample preparation, Method of analysis,

Sample analysis, Quantification,

Method validation & recovery studies.

The training session covers different aspects like instrumentation of fluorimeter. The session covers

- Introduction of fluorimeter
- Principal and Instrumentation of fluorimeter
- Application of fluorimeter
- Experiment work of fluorimeter

A fluorometer or fluorimeter is a device used to measure parameters of visible spectrum fluorescence. It's intensity and wavelength distribution of emission spectrum after excitation by a certain spectrum of light. These parameters are used to identify the presence and the amount of specific molecules in a medium. This is explained to the students, modern fluorometers are capable of detecting fluorescent molecule concentrations as low as 1 part per trillion. In addition, students are informed how fluorescence analysis can be more sensitive than other techniques.

ACADEMIC YEAR 2015-16

Activity Report of Workshop on Diffusion Assembly for Drug Transport through Skin

Committee: Scientific Committee

Date: 13-02-2016

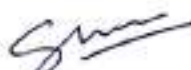

Venue: Seminar Hall

Coordinator and Resource Person: Dr Suruchi Vishwasrao

A workshop was conducted for M.Pharm students on the different types of animal and synthetic semi-permeable membranes that could be used to simulate transport across skin. Goat nasal mucosa, Goat buccal mucosa, Chick membrane, egg membrane and dialysis membrane were used for demonstration. The methods for pretreatment of the membranes were taught along with mounting of the membranes. The students were taught to calculate the flux to determine the rate of drug transport across the membrane.

Students mounting the animal membrane onto the Diffusion assembly

Modules Developed on Competency Based Curriculum Enrichment Instruments/ Equipment Handling

Academic Year 2014-15

REPORT OF MODULE ON

COMPETENCY BASED CURRICULUM ENRICHMENT PROGRAM

NAME OF COMMITTEE: Scientific Committee

COMMITTEE IN-CHARGE: Ms.Suruchi Vishwasrao

MEMBERS: Ms.Rajini Nair

NAME OF ACTIVITY: MODULE ON COMPETENCY BASED CURRICULUM
ENRICHMENT PROGRAM

TOPIC: Training on Sophisticated Instrument/ Equipment– HPLC, UV, Fluorimeter

DATE AND TIME OF ACTIVITY CONDUCTED: -01/10/2014, 02/10/2014 & 03/10/2014

VENUE: Seminar Hall, Central Instrumentation Room,

NO. OF STUDENT VOLUNTEERS/ORGANIZERS: 6

BENEFICIARIES OF ACTIVITY: Students from Final Y. B.Pharm, F. Y. M. Pharm

EXPERT FACULTY: Ms.Rajini Nair, Mr.Sunil Kakad, Mr.Rahul Buchade

PROPOSED OUTCOME OF THE ACTIVITY: Module provides students with
theoretical knowledge and develops practical skills of handling Sophisticated
Instrument/ Equipment– HPLC, UV, Fluorimeter.

Alard Charitable Trust's

Alard College of Pharmacy

(Approved by AICTE, Affiliated to University of Pune & Recognized by Govt. of Maharashtra)

ID No.: U/PN/Pharmacy/260/2006

Email: info@alardinstitutes.org Website: www.alardinstitutes.org

ACTIVITY REPORT:

The module was covered in three days as follows:

Day 1: 01/10/2014 UV (3.5Hrs), HPLC (4.5 Hrs) for all Batches

Sr. No	Time	Schedule	Venue
1.	9.00-10.00 am	Introduction, Principle and Instrumentation of UV	Seminar Hall
2.	10.00-10.30 am	Application of UV	
3.	10.30-12.30pm (Batch A,B,C – 40 mins each)	Hands on Training on software used in UV	Central Instrument Room
4.	12.30-1.00pm	Lunch Break	
5.	1.00-2.00pm	Introduction, Principle and Instrumentation of HPLC	Seminar Hall
6.	2.00-2.30pm	Applications of HPLC	
7.	2.30-3.30pm	System Suitability studies	
8.	3.30-4.30	Trouble shooting in HPLC	

Day 2: 02/10/2014 HPLC (3.5Hrs/ batch)

Sr. No	Time	Schedule	Venue
1.	9.00-11.00am Batch A	Practical demonstration & Hands On Training of HPLC	Central Instrument Room
2.	11.00-1.00pm Batch B	Practical Demonstration & Hands on Training of HPLC	
3.	1.00-1.30pm	Lunch	
4.	1.30-3.30pm Batch C	Practical Demonstration & Hands on Training of HPLC	Central Instrument Room
5.	3.30-5.00pm	Calculations Report writing All Batches	Seminar Hall

Alard Charitable Trust's

Day 3: 03/10/2014 Fluorimeter (3.5 Hrs) for all Batches

Sr. No	Time	Schedule	Venue
1.	9.30- 10.30am	Introduction, principle, working of Fluorimeter	Seminar Hall
2.	11.00 – 12.00 pm Batch A	Demonstration of Fluorimeter Hands on Training	Central Instrument Room
3.	12.00 – 1.00 pm	Lunch	
4.	1.00-2.00pm Batch B	Demonstration of Fluorimeter Hands on Training	
5.	2.00- 3.00 pm Batch C	Demonstration of Fluorimeter Hands on Training	
6.	3.00-3.30 pm	Tea	
7.	3.30 – 5.00 pm	Report writing of, Fluorimeter MCQ based Evaluation Test, Certificate distribution	Seminar Hall

The training session covers different aspects like instrumentation of UV and software handling. The session covers

- Introduction of UV
- Principal and Instrumentation of UV
- Application of UV
- Experiment work of UV- Sample preparation in UV

The training session covers different aspects like role of analytical method, principle and applications of HPLC. The training program begins with basics of chromatography and covers all the practical aspects of HPLC including sample preparation, method development and method validation. Following topics will be covered in this training.

- Introduction to chromatography

- Principles of liquid chromatography and HPLC components and their functions
- Applications of HPLC
- System Suitability studies
- Experimental Work: Sample preparation, Method of analysis,

Sample analysis, Quantification,

Method validation & recovery studies.

The training session covers different aspects like instrumentation of fluorimeter . The session covers

- Introduction of fluorimeter
- Principal and Instrumentation of fluorimeter
- Application of fluorimeter
- Experiment work of fluorimeter

A fluorometer or fluorimeter is a device used to measure parameters of visible spectrum fluorescence. It's intensity and wavelength distribution of emission spectrum after excitation by a certain spectrum of light. These parameters are used to identify the presence and the amount of specific molecules in a medium. This is explained to the students, modern fluorometers are capable of detecting fluorescent molecule concentrations as low as 1 part per trillion. In addition, students are informed how fluorescence analysis can be more sensitive than other techniques.

REPORT OF MODULE ON **COMPETENCY BASED CURRICULUM ENRICHMENT PROGRAM**

Academic Year 2014-15

NAME OF COMMITTEE: Scientific Committee

COMMITTEE IN-CHARGE: Ms.Suruchi Vishwasrao **MEMBERS:** Ms.Rajini Nair

NAME OF ACTIVITY: MODULE ON COMPETENCY BASED CURRICULUM
ENRICHMENT PROGRAM

TOPIC : Training on Pilot plant– Dryer, Double Cone blender, Tablet Compression,
Tablet coating, Dissolution Tester, Disintegration Test apparatus, Friability Apparatus

DATE AND TIME OF ACTIVITY CONDUCTED: -25/02/2015, 26/02/2015 & 27/02/2015

VENUE: Seminar Hall, Pilot Plant Lab.

NO. OF STUDENT VOLUNTEERS/ORGANIZERS: 5

BENEFICIARIES OF ACTIVITY: Students from Final Y. B.Pharm, F. Y. M. Pharm.

EXPERT FACULTY: Ms. Suruchi Vishwasrao, Vibhavari Chatur, Mrs. Sucheta Tikole

APROPOSED OUTCOME OF THE ACTIVITY: Module provides students with
theoretical knowledge and to provide real-time experience of handling manufacturing of
Tablet dosage forms in a pilot plant and its maintenance.

ACTIVITY REPORT:

The following schedule was followed for the training:

Day 1: 25/02/2015

Alard Charitable Trust's

Marunji, Pune 411057

Day-2

On 3 Jan 2019, at 6.00 to 6.25am in the morning the NSS Volunteer started the day with a prayer. From 6.25-7.10 am the volunteers were part of Yoga practice. Later Volunteers conducted a survey regarding health problems and facility in Markal village to find and understand the basic problems and needs of the villagers. There was good amount of interaction with the villagers and the volunteers. Around 120 families in the Markal village were surveyed regarding number of members in family, age, education, aadhar card, pan card, voter id, and waste management, availability of drinking water, health facility, road and electricity availability, some villagers reported need of waste management and facility regarding e-information service Centre.

Day3

Visit to Triveni Ashram and *Aloe vera* Farm in Markal

NSS Volunteers visited Triveni ashram to learn the technique of meditation. The teacher from Triveni Ashram also conducted a session on stress management.

Day 4

Swachhata Rally

On the fourth day, Swachata / health awareness rally was organized in Markal village, with the motto ONE STEP TOWARDS CLEANLINESS. Many volunteers actively took initiative towards the cleanliness of the village and also creating awareness among the villagers. Many villagers took the forward step in keeping their village clean and hygienic. Sabhapati, Health department, Markal guided the NSS participants.

Day 5

On fifth day they cleaned the Chatrapati Sambhaji Samadhi at Tulapur which is present near Markal. On the same day, Lecture session was conducted by Mr. Ganesh Khanwate Maharaj (Tuljapoor) regarding Beti bachao and women empowerment in the evening.

Day 6

NSS Volunteers arranged drawing competition at Navin Madhyamik Vidyalaya, Markal for students of 5th, 6th, and 7th standard. And the first three winners were awarded with

Lecture on deaddiction in the marunji village:

On 11/01/2018, in the closing ceremony, Chief guest Shri Nitin Pradhan (Art of living Teacher) graced the ceremony along with Sarpanch Biadabai Buchade, Upsarpanch Mr. Akash Buchade, ACP Principal Dr. Sonia Singh. Shri Nitin Pradhan addressed the students and villagers about effect of addiction on individuals and their family and how de-addiction can help people to come out of the affected lifestyle. He said villagers were not opening up about their habits because they know that they are harmful to them. Sadly, they do not stop it in spite of knowing about its harmful effects. The Art of Living NGO provides deaddiction program PRAN for addicted individuals. He appreciated efforts taken by students. Total 50 students participated in this activity

Activity Report:

Alard College of Pharmacy had organized a One Week Special Camp at Marunji Village on 15/12/2014 to 21/12/2014. It is imperative to mention that the Marunji has been adopted by the institute. The objective of this camp was to begin the interface with community, support building with community members and developing understanding of the village keeping in view the rationale of village adoption i.e. develop long term institutional relation with the community and contribution to the upliftment of people therein. Our college is actively involved in community networking. Almost all of their activities and programmes throughout the session focus on socially relevant issues. Their intensive participation in such programmes inculcates in them a spirit of good citizenship, service orientation and helps in the holistic development of their personality. Students carried out the following activity during this camp.

1. Swatch Bharat Abhiyan:

Swatch Bharat Abhiyan was conducted on 16/12/2014 and 17/12/2014 in Marunji village. In this activity students were taken survey on availability of basic needs i.e. drinking water, waste disposal system, roads etc. simultaneously students also given awareness about health and hygiene to villagers. After survey they clean main roads in Marunji Village. Total 50 students were present for this activity.

Name of Activity: Session on Student Psychology

Date of Activity Conducted: 25-09-2014

Expert Faculty: Mrs. Arti Pendse, Psychologist, Director, Maanasmitra Counseling center, Pune

ACTIVITY REPORT

Alard college of pharmacy organized Session on Student Psychology by Mrs. Arti Pendse , Psychologist for first year and Second year student. She started the workshop with a very creative introductory session, where students had to introduce themselves in a novel way. They had to either mention an adjective or a quote or song which best describes them. They could also explain the meaning of their names (without revealing the names) thereby giving an opportunity to the others to guess the names! It was an enjoyable ice-breaking exercise and it was observed that students were quite engrossed in the exercise. This was followed by a discussion on the Self, one's desires, dreams, passions and motivations. Students were told how important their dreams and desires are for developing the personality. It was stressed that they need to have a passion in life. Students were also given tips on how to increase their self-esteem. They were also encouraged to be optimistic and to have a positive approach about everything in life. Most importantly, it was emphasised that they should love themselves and never lose confidence. Session ended with vote of thanks by Ms. Vibhavari Chatur .

ACTIVITY REPORT

ACADEMIC YEAR 2014-15

GUEST LECTURE BY ALUMNA Dr. MANOJ SINGH, CEO, Orion Research

Title: "Clinical Research as a Career in Pharmacy Field"

Venue: Seminar Hall

Date: 25/09/2014

No. of students present: 47

REPORT:

Mr. Manoj Singh, CEO of Orion Research is the first batch student alumni of ACP. He delivered a talk on Clinical Research as a career option for pharma students. He also advised the students to study the concepts and understand them with practical examples rather than rote. He gave many practical examples to describe the scenario of clinical research market and its scope in India. Students enthusiastically interacted with him to learn this new avenue of career. Dr Sonia Singh, Principal thanked Mr. Manoj Singh for his valuable time and inputs and requested him to provide our students preferential opportunities for training and placement.

INTERNAL CO-ORDINATION COMMITTEE ACTIVITIES REPORT

Academic Year: 2014 -15

Name of Committee: Scientific committee

Name of Committee In-Charge: Ms. Suruchi Vishwasrao

Name of Committee Members: Ms. Rajani Nair

Name of Activity: Seminar on Intellectual Property Rights

Date of activity conducted: 21/03/2015

Expert Faculty: Ms.Srividya Ravi

Activity Report:

Alard College of Pharmacy organized seminar on Intellectual Property Rights for third and final year B Pharm student in seminar hall. On this occasion Ms.Srividya Ravi was invited to share her views. She explained that Intellectual Property Rights are legal rights, which result from intellectual activity in industrial, scientific, literary & artistic fields. These rights Safeguard creators and other producers of intellectual goods & services by granting them certain time-limited rights to control their use. She also focused on types of IPR and patent certification. She provided examples of value-based patents issued to students for IP and the financial gains associated with them. She described role of IPRs in growth and development of start-ups, Government of India schemes, guidelines for IPRs to facilitate start-ups, start-up contracts and agreements and IP facilitators.

The session ended with vote of thanks by Dr.Suruchi Vishwasrao. Ms. Rajani Nair was coordinator for this session. Total 56 students were present for the session.
